

Master's Degrees by Field Prior to Doctorate Degree in 2023

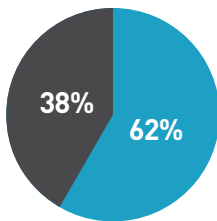

Master's Earned by Doctorate Recipients

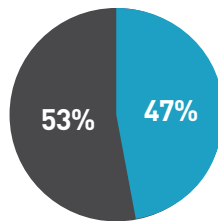

Earning a master's degree prior to a doctoral degree varies by field. Notably, biology related fields and chemistry do not appear to emphasize earning master's degrees as much as other science fields.

Master's Institution of Doctorate Recipients with Master's Degree

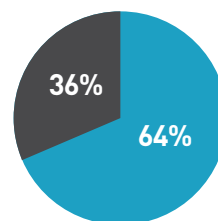

Biological and Biomedical Sciences

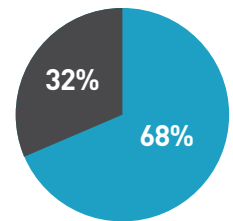

Biological, Biomedical, and Biosystems Engineering

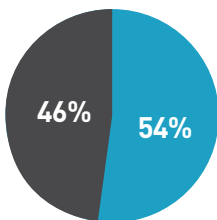

Agricultural Sciences and Natural Resources

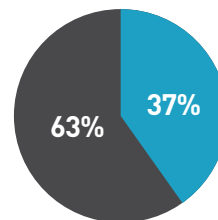

Health Sciences

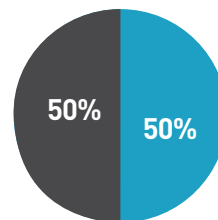

Chemistry

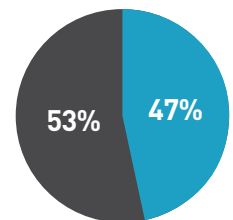

Physics
